

# POL008 - PERSONAL PROTECTIVE EQUIPMENT POLICY

AsClear Pty Ltd acknowledges that the use of personal protective equipment (PPE) plays a major role in helping to keep our employees safe from any risk that they may face during their employment.

The wearing of appropriate personal protective equipment is mandatory for all employees and management.

The minimum personal protective equipment clothing standard for non-office employees provided by AsClear Pty Ltd includes long sleeve shirts, long pants, steel cap boots, clear safety glasses and noise protection.

If an employee is required to wear a respirator for the purposes of their employment (asbestos-related activity, painting or blasting), it is the responsibility of the employee to provide their own respiratory protection which meets legislative requirements for their exclusive use - Full Face SR200 or Nova 2000/3 Blast Helmet.

The employee shall ensure that all respiratory protective devices are regularly checked, properly stored, maintained, cleaned and replaced in accordance with the manufacturer's recommendations and AS/NZS 1715:1994 – Selection Use and Maintenance of Respiratory Protective Devices.

AsClear Pty Ltd will provide all applicable consumables relating thereto including but not limited to filters, wipes, lenses and the like.

Failure by employees and management to wear the appropriate personal protective Equipment will be seen as failure to perform duties adequately and disciplinary action may ensue.

  
Lance Willis - Managing Director

  
Darren Kelly - Managing Director
