

POL009 - QUALITY POLICY

AsClear is committed to the assurance of the product quality and services we provide through the management of objectives in a safe, socially and environmentally responsible manner.

As part of our Quality Management System, AsClear will:

- Consider business, quality, safety and environmental related outcomes at all stages of the decision making process
- Set and achieve objectives and targets to continuously improve business performance
- Ensure that all our operations comply with legislation, regulations and meet interested parties expectations
- Regularly review and report performance
- Ensure that all employees and contractors are fully aware of and meet their responsibilities
- Operate third-party certified Management Systems e.g ISO 9001 and AS/NZS 4801
- Recognise, communicate and respond to client concerns
- Identify opportunities to improve the business performance

Our Management team are responsible for implementing system and performance improvements by:

- Ensuring the Management Systems are effectively resourced and maintained
- Identifying compliance through Audit Programs and actioning all areas of non-compliance

 Lance Willis - Managing Director

 Darren Kelly - Managing Director
